PRE-MARKET INSTITUTIONAL EQUITY BRIEF

PSE Session: Wednesday, 2 September 2026 (Shares slide as peso hits record low)

THE CALL & STRATEGY

Market Consolidation Amid FX Pressures: The PSEi surrendered its previous momentum, declining **-0.67% (-40.66 pts) to close at 6,053.23**. The correction was heavily driven by intensifying foreign capital rotation as the Philippine Peso weakened to an all-time record low of **₱62.521** against the US Dollar, stoking near-term inflation anxieties. Total value turnover settled at a moderate **₱5.69B**, while net foreign selling expanded to **-₱559.82M**. While global macro forces continue to exert downward pressure on EM equities, domestic fundamentals are anchored by a robust corporate earnings cycle.

Actionable Tactical View: We maintain a highly selective **Dip Accumulation** stance. Investors should focus on quality defensive names with deep regional moats and highly resilient rental yield pipelines that buffer currency volatility. Keep a close watch on **JFC (₱152.00)** as a high-conviction BUY on global listing spinoff targets, and maintain a **HOLD** on oversold telecoms like **TEL (₱1,140.00)** while institutional selling moderates. Accumulate property giants like **ALI (₱14.74)** and **SM Prime (₱18.10)** on near-term technical weaknesses, as asset consolidations and core portfolio expansions provide strong structural valuation floors.

CORPORATE WATCH & ACTIONABLE STANCES

JFC (฿152.00, -0.00%) — BUY / ACCUMULATE

Plans to spinoff and list its global unit in Hong Kong rather than the US by 2027 to capitalize on regional brand recognition and capital liquidity, keeping domestic core operations firmed on the PSE.

MEG / MREIT (฿2.23 / ฿13.68, -3.04% / +0.74%) — ACCUMULATE ON WEAKNESS

Megaworld, Travellers, and Southwoods Mall will receive 1.637B MREIT shares worth ฿27.01B in exchange for 12 prime income-generating assets, priced at ฿16.50/share (18.6% premium over MREIT's 30-day average).

ALI (฿14.74, -1.87%) — ACCUMULATE

Ayala Land is consolidating its nationwide estate businesses to streamline operations and enhance structural efficiencies. ALI's long-term pivot to resilient investment property recurring leases remains highly positive.

TOP (฿1.75, +0.00%) — SPECULATIVE BUY

Topline Group signed an MOU with Japan's Jigowatts Inc. to deploy and install EV charging stations across its expanding fuel station network via Light Fuels, Vikingland, and Pier Eighty-Eight Ventures.

TEL (฿1,140.00, -0.87%) — HOLD / MONITOR

PLDT firmed up its ESG supplier assessments and was named 'Company of the Year' at the Quill Awards. Despite strong corporate governance, the persistent foreign index rebalancing outflows warrant technical patience.

MINING WINDFALL (NIKL: ฿4.00 | FNI: ฿2.08 | MARC: ฿0.79, NIKL: +0.00% | FNI: +2.79%) — SPECULATIVE BUY

Philippine nickel miners set to benefit from explosive demand. Indonesia (controlling ~60% of supply) must cut smelting complex output by 40% due to an El Niño drought, which will instantly lift global nickel prices.
