THE CALL — Quick Read & Actionable

Index rebounds. The PSEi snapped back +1.00% (+61.17) to 6,133.41, recovering the bulk of Friday's rebalancing-day volatility. Breadth was positive (96 advances / 75 declines), led by Financials (+1.85%) and Holding Firms (+1.14%); Mining & Oil (-1.53%) and Property (-0.25%) lagged.

Foreigners turn buyers. Net foreign flow flipped to +P311.2M of buying (from -P481.6M the prior session), driven by GLO (+P212.9M) and ICT (+P146.3M). Offshore selling concentrated in AC (-P49.2M), MYNLD (-P29.7M), TEL (-P27.0M) and ALI (-P26.0M).

Catalyst of the day. Globe's Mynt (GCash) filed for an IPO of up to P92.3B (Q4 debut), lifting GLO +7.6% (intraday +9.1%); separately, Globe launched Starlink Direct-to-Cell after NTC approval.

Macro tape. A global risk-on session (Dow record; Nasdaq +2.1%) met softer commodities (Brent -3.2%, gold -1.4%). The peso firmed to ~P61.26 and the PHL 10Y held near 6.95%. June CPI is due early July (BSP FY forecast 6.4%).

Actionable ideas

- **ACCUMULATE ALI (P15.10)** — deep-value flagship on local-institutional conviction.
- **ACCUMULATE ON DIPS ICT (P890.00)** — dollar earner; foreign-flow leader, but disciplined entry on 3–5% pullbacks.
- **MONITOR Banks (BDO/BPI/MBT)** — PHL 10Y near 6.95% and Fitch's "deteriorating" sector outlook cap upside.
- **MONITOR GLO (P1,925.00)** — Mynt/Starlink catalysts largely priced after the rally; let it consolidate.

CORPORATE NEWS, ANALYSIS & INSIGHT

GLO ₱1,925.00

Mynt (GCash) files for up to ₱92.3B IPO; Globe also launches Starlink Direct-to-Cell

Globe's fintech unit **Mynt Inc.** — operator of the GCash wallet — lodged a preliminary prospectus for an IPO of up to ₱92.3B, offering as many as 9.23B shares at up to ₱10 each, with a targeted fourth-quarter debut. Morgan Stanley, J.P. Morgan and UBS AG are joint global coordinators and joint bookrunners; Jefferies Singapore is international joint bookrunner. Globe is a key Mynt shareholder, and the filing crystallizes long-anticipated value: GLO rose as much as 9.1% intraday before settling +7.6%, its highest since May 2025, and drew the session's single largest foreign inflow (+ ₱212.9M).

Separately, Globe launched **Starlink Direct-to-Cell** following NTC approval — a connectivity differentiator for remote-coverage and resilience use-cases.

DA View — Stance: MONITOR — catalysts are real but now largely priced after the rally; prefer accumulation on consolidation back toward ₱1,800.

BPI ₱99.00

BPI to permanently waive InstaPay and PESONet fees from 1 July

Bank of the Philippine Islands will permanently waive fees on both InstaPay (real-time) and PESONet (batch) transfers across its digital channels — the BPI app, BPI Online, VYBE and BizKo — effective 1 July 2026. The move sharpens BPI's digital-acquisition edge and deepens transaction stickiness, at the cost of a modest fee-income headwind. BPI closed higher with +₱48.1M of foreign buying, among the cleanest large-cap bank flows of the session.

DA View — Stance: MONITOR — constructive on franchise/digital share, but the sector overlay (PHL 10Y ~6.95%, Fitch "deteriorating") tempers the call versus prior ACCUMULATE.

ALI ₱15.10

Ayala Land advances next phase of Lio Coastal Estate (El Nido)

Ayala Land is moving forward with the next phase of its Lio Coastal Estate in El Nido, Palawan — a tourism-led, master-planned estate that lengthens ALI's recurring-income and leisure pipeline. The stock saw ₱26.0M of foreign selling but held firm on local-institutional support, consistent with the deep-value thesis at roughly 14–15 peso levels.

DA View — Stance: ACCUMULATE — deep-value flagship; accumulate on 5% dips. Key catalyst: H1 2026 earnings and margin recovery.

PAL ₱2.70

PAL to resume Manila–Dubai flights in October

PAL Holdings' flag carrier will reinstate its Manila–Dubai route in October, restoring a Gulf gateway with strong OFW and cargo demand. The route adds network breadth and premium yield potential, but PAL remains pinned at a 52-week low and screens with thin liquidity.

DA View — Stance: MONITOR — route restart is incrementally positive; await volume confirmation and a base above current levels.

Energy AP ₱40.75 • ACEN ₱3.09 • MER ₱574.00

DOE to issue show-cause orders to 175 power firms over plant outages

The Department of Energy will issue show-cause orders to 175 power firms tied to generating-plant outages, a regulatory-governance overhang for the power complex into peak-demand months. The most exposed listed names are the generators and integrated utilities. **Aboitiz Power (AP, +₱3.2M foreign buying)** and **ACEN (oversold per RSI screen)** carry the most direct headline risk; **Meralco (MER)** is more insulated as a distributor.

DA View — Stance: GOVERNANCE WATCH on AP/ACEN (MONITOR); MER MONITOR. Outage compliance and any penalty scope are the variables to track.

TOP ₱1.56

PSE flags Top Line as fastest post-IPO follow-on (FOO) issuer

The Philippine Stock Exchange noted Top Line Business Development Corp. as its fastest post-IPO follow-on offering issuer — a capital-markets positive that supports the float and growth runway. TOP printed a 52-week high but now screens RSI-overbought, so the risk/reward is momentum-extended near term.

DA View — Stance: MONITOR — fundamentally encouraging, but await an RSI cool-down before fresh exposure.

PHL Macro

Sector & macro notes

A Brown (BRN) secured DOE authority for its first solar project, extending its renewables pipeline (shares illiquid; MONITOR). **Metro Pacific Agro Ventures** will build a new dairy-processing plant by 2027 — a Metro Pacific group development; note MPIC was taken private (delisted 2024), so there is no direct PSE proxy.

BSP is set to release its June 2026 inflation read early next week (full-year forecast 6.4%) — the key swing factor for the 10Y and the bank/REIT trade. The Treasury sold bills across tenors (364-day 5.968%, 181-day 5.764%, 91-day 5.245%). A 5.2-magnitude earthquake SSW of Sarangani had no material market impact. Regional funds bought Taiwan (\$385.6M), Thailand (\$228.5M) and India (\$165.8M) while selling South Korea (~\$5.0B) and Indonesia (\$49.4M).
