**DA MARKET SECURITIES, INC.**

# PRESIDENT'S EXECUTIVE SUMMARY

**For the Board of Directors – Advanced Reading Materials (ARMs)**

Reporting Period: October 24 – November 5, 2026

Prepared by: Jocelyn David-Greenlaw, President

## 1. BUSINESS DEVELOPMENT AND REVENUE DIVERSIFICATION

### A. BPI Wealth Partnership – Management Priority

Management met with BPI Wealth on October 30 and November 4, 2026, to explore opportunities to diversify DA Market's revenue beyond traditional stockbroking.

**Discussions covered:**

- Unit Investment Trust Funds (UITFs)
- Investment Management Accounts (IMAs)
- Personal Equity and Retirement Accounts (PERA)
- Fixed-income distribution arrangements
- Potential recurring commissions and referral fees

Management also proposed a fixed-income distribution arrangement under which BPI Wealth would serve as custodian and provide the necessary investment infrastructure. This arrangement could potentially allow DA Market to expand its product offerings without immediately pursuing its own fixed-income license and investing in costly infrastructure, subject to regulatory review and approval.

I am prioritizing BPI Wealth because its representatives have been receptive to our proposals, responsive, and easy to communicate and coordinate with.

**Next Steps:** Complete the necessary documentation, identify interested salespersons, and pursue applicable training, examinations, and regulatory requirements.

### B. ATRAM Partnership

Completion of the requirements for the proposed UITF distribution partnership with ATRAM remains in progress.

While Management will continue working toward completing ATRAM's requirements, our immediate priority is advancing the BPI Wealth partnership, given its representatives' responsiveness, accessibility, and willingness to explore our proposals.

### C. InvestaTrade Online Trading

Following Gelo's inquiry with the SEC on November 3, 2026, Management was informed that the application still needs to undergo review and approval by the SEC Commission En Banc.

Management remains hopeful that InvestaTrade can be launched by December 2026, subject to SEC approval.

## 2. CORPORATE FUNDS AND INVESTMENT MANAGEMENT

**A. Margin Financing**

A valued client has expressed renewed interest in potentially availing of DA Market's margin-financing facility.

Management will evaluate the potential utilization of this facility, particularly its impact on liquidity, regulatory capital, and the company's overall financial position, to ensure continued financial soundness and compliance.

**B. BDO Investment Performance Review**

Management has requested a comprehensive performance report from inception to assess:

- Historical investment returns
- Realized gains and losses
- Performance compared with prevailing time-deposit rates

The review will help Management evaluate the effectiveness of the investment strategy and determine whether adjustments are warranted.

**C. Corporate Time Deposits**

Management may consider pre-terminating the company's time deposits with BOF, EBB, and BDO should the margin-financing facility become fully utilized and additional liquidity be required.

Any decision will consider liquidity requirements, pre-termination costs, investment returns, and regulatory capital adequacy.

## 3. PERSONNEL DEVELOPMENT

**A. New Hires and Training**

- **Angelo Jonil "Gelo" Ebora** joined on October 12, 2026, as an Associated Person (AP) trainee.
- **Liezel Anne Enriquez** joined on October 26, 2026, to support administration and corporate affairs.

Management continues to monitor their training, performance, and integration into the organization.

**B. AP Examination Requirements**

In response to the Board's instructions, Management has requested a separate report covering Gelo's AP examination requirements, the arrangements agreed upon with him, and the corresponding responsibilities and expectations.

## 4. MANAGEMENT DIRECTION – BUILDING A STRONGER, GROWTH-ORIENTED TEAM

As DA Market pursues growth and profitability, I hope to build a team that is proactive, enthusiastic, supportive, and committed to our shared success.

I am encouraged by the positive energy and willingness to learn shown by new hires like Gelo. I hope to inspire this same spirit throughout the organization.

I am disappointed by the reluctance of some team members to undergo cross-training and provide backup for Abby during her repeated and continuing absences, despite Management offering training opportunities. While I understand that everyone has their own responsibilities, I believe teamwork requires flexibility, initiative, and a willingness to support one another to ensure continuity of operations and client service.

Steve Jobs believed in hiring talented people who contribute ideas and solutions rather than simply wait for instructions. I share this philosophy.

My vision is to build a team that doesn't just work for DA Market, but works together to make DA Market better.

Ultimately, it is not about having more people, but bringing out the best in the people we have and growing together as one team.
