THE CALL

PSEi dropped -1.04% to 6,267.85 in a second consecutive selling session as **Services collapsed -3.01%**, dragged by ICT's extraordinary **P503M net foreign selling** — the largest single-name outflow in recent PSE history. The stock plunged 3.9% to P960. Total net foreign selling widened to P655M (vs. -P312M prior session). Brent crude surged past \$94 on escalating U.S.-Iran conflict, gold hit \$4,124, and the peso fell near record lows. Mining & Oil (+1.29%) and Industrials (+0.40%) were the lone bright spots. PHL 10Y held at 7.422% while US 10Y pushed to 4.659%. BSP's next decision is Aug. 27 with the rate at 4.75%.

CORPORATE STANCE CARDS

ICT 960.00**ICT Plunges 3.9% with P503M Foreign Selling — Largest Single-Name Outflow in Recent PSE History**

ICT suffered an extraordinary P502.8 million in net foreign selling, dwarfing every other name on the board and marking the largest single-name foreign outflow in recent weeks. The stock fell 3.9% from P999 to P960 on P1.93 billion turnover. Block sales totaled P498M across two transactions at P1,012-P1,019, well above the closing price, indicating large institutional liquidation at premium levels. ICT has now seen consecutive sessions of net selling (-P56M, -P503M) after three straight buying sessions totaling +P760M.

The magnitude of the outflow suggests a single large holder or fund rebalancing rather than a shift in fundamental view. ICT remains the PSEI's most liquid name and premier dollar-earner with Brent now above \$94. The sell-through at P1,012-P1,019 on block suggests conviction sellers, not panicked retail. Pullback toward P940-P950 may present deep-value re-entry for patient holders.

**ACCUMULATE ON DIPS****MWC** 35.70**Manila Water Attracts P70M Foreign Buying — Session's Top Inflow Name**

Manila Water was the session's largest foreign buying recipient at P70.0 million on P191M turnover, closing at P35.70. The defensive water utility has emerged as a consistent foreign-flow magnet amid the broader market selloff, with cumulative buying of P34M (Jul 20), P34M (Jul 21), P70M (Jul 22) across three sessions.

MWC's sustained foreign inflows signal institutional rotation into defensive, regulated-earnings names as oil prices and rate uncertainty weigh on growth stocks. The P70M session flow is MWC's largest in recent weeks.

**ACCUMULATE****ALI** 16.92**ALI Sees 4th Consecutive Session of Heavy Foreign Selling (-P104M)**

Ayala Land continued its punishing foreign outflow streak, recording P104.4 million in net selling on P246M turnover. The stock slipped 0.1% to P16.92. Cumulative foreign selling over four sessions now exceeds P460M: -P147M (implied reversal), -P113M, -P95M, -P104M. This is the most sustained period of institutional distribution for ALI in the current cycle.

The persistent selling pattern suggests a fundamental reassessment of ALI's positioning amid rising rates (PHL 10Y at 7.42%), peso weakness, and property-sector headwinds. The AC/ALI deep-value thesis remains intact but timing is against the stock. Wait for flow reversal confirmation before re-entry.

**AVOID NEAR-TERM****BDO** 122.90**BDO Drops Again with P75M Foreign Selling; Banks Under Sustained Pressure**

BDO fell 0.3% to P122.90 with P75.0 million in net foreign selling, the second most active stock at P320M. Block sales of P25M (200K shares at P125.04) occurred above close. BDO has now recorded three sessions of accelerating foreign selling: -P100M (Jul 21), -P75M (Jul 22). BSP's rate hike to 4.75% and projected lending slowdown continue to weigh on the banking sector.

BDO support at P120 is critical. The PHL 10Y holding at 7.42% and upcoming BSP Aug 27 decision create binary risk for bank stocks.

**MONITOR****MWIDE** 4.12**GSIS Acquires 9.5% Strategic Stake in Megawide**

The Government Service Insurance System (GSIS) has emerged as a major investor in Megawide Construction Corp., acquiring a 9.5% stake. This institutional endorsement from the country's largest pension fund signals confidence in Megawide's infrastructure project pipeline and construction backlog. MWIDE rose 0.5% to P4.12 with P914K in net foreign buying.

GSIS stakes in listed companies typically signal long-term value positioning. Megawide's construction and infrastructure exposure positions it to benefit from the government's infrastructure spend.

PAL 2.38**PAL Signs Rolls-Royce Engine Deal for Expanded A350 Fleet**

Philippine Airlines signed an engine maintenance and support agreement with Rolls-Royce for the Trent XWB engines powering its expanded Airbus A350-1000 fleet. This follows last week's dual fleet modernization announcements (20 Boeing 787-10s + 9 Airbus A350-1000s). PAL rose 1.7% to P2.38 on P3.8M turnover, though P1.9M in net foreign selling suggests muted institutional interest at current levels.

The Rolls-Royce deal de-risks PAL's engine maintenance costs for the A350 fleet. Combined with the fleet orders, PAL is executing an ambitious multi-decade growth strategy.

 **MONITOR****MER** 600.00**Meralco Gains 0.8% with P10.7M Foreign Buying; Studies Albay Expansion**

Meralco rose 0.84% to P600 with P10.7 million in net foreign buying. The utility is studying expansion into Albay province after a setback in South Cotabato. Meralco continues to attract defensive foreign flows across multiple sessions (P45M Jul 17, P55M Jul 20, P57M Jul 21, P11M Jul 22).

MER's consistent foreign buying streak makes it the most reliable flow name in the PSEi. The P600 close is psychologically significant. Energy-sector tailwinds from oil above \$94 support the generation business.

 **MONITOR****TEL** 1,245.00**PLDT Attracts P27M Foreign Buying; Defensive Telco Positioning**

PLDT gained 1.3% to P1,245 with P27 million in net foreign buying on P158M turnover. The telco continues to benefit from defensive rotation as growth names face selling pressure.

TEL and MWC are the session's top two foreign-bought names, confirming the defensive-rotation thesis. TEL's dividend yield and regulated revenue make it attractive in a rising-rate environment.

 **MONITOR****AT** 12.18**Atlas Mining Extends 3-Session Rally +5.2%; Mining Sector +1.29%**

Atlas Mining rose 5.2% to P12.18 on P167M turnover as the mining & oil sector gained 1.29%, the third consecutive session of sector-level outperformance. However, P7.2M net foreign selling suggests the rally remains primarily local-driven. AT has now gained ~40% from its P8.75 level on July 17.

AT is increasingly overbought after a 40% three-session run. The commodity tailwind from \$94 Brent provides fundamental support but profit-taking risk is extremely elevated. Not a new-entry level.

 **TAKE PROFITS****SM** 586.00**SM Investments Falls with P41M Foreign Selling; Holdings Sector Weak**

SM Investments dropped 0.3% to P586 with P40.6 million in net foreign selling on P132M turnover. Block sales of P24M (40K shares at P598.01) occurred well above close. The holding-firms sector declined 0.27%. SM has now seen multi-session foreign selling.

SM's yield story (est. 3.97%) continues to face headwinds from the PHL 10Y at 7.42%. The block sale above close suggests institutional positioning rather than distressed selling.
