CORPORATE STANCE CARDS

ICT 979.00**ICT Buying Extends to 2nd Session (+P70M); Selling Wave Over**

ICT recorded P69.6 million in net foreign buying, the second consecutive inflow after three sessions totaling P771M in selling (-P56M, -P503M, -P212M). The stock gained 1.0% to P979 on P1.31 billion turnover. The selling episode is now confirmed as institutional rebalancing rather than a fundamental shift. Brent at \$93.87 continues to support ICT's dollar-denominated earnings.

ICT has stabilized and resumed its structural accumulation pattern. The P940-P960 support zone held during the selloff. The stock is now in a recovery phase targeting the P1,000 level.

 **ACCUMULATE ON DIPS****ALI** 16.90**ALI Block Sales Hit P527M — Largest Single-Day Block Volume This Cycle**

Ayala Land saw extraordinary block activity: 19.57M shares at P16.6655, 7.93M shares at P16.6555, and 4.15M shares at P16.6707, totaling P527 million and 31.65 million shares. DQR main-board net foreign selling was -P48.6M, the 7th consecutive session of outflows but the magnitude is declining (from -P110M to -P49M). The block prices of P16.66-16.67 are below the prior AC buyback level of P16.83-P16.93.

The P527M block volume suggests a large institutional holder executing a planned distribution. The declining main-board selling trend (-P110M to -P49M) indicates the regular-session selling pressure is abating even as block activity remains heavy. AC's buyback floor at P16.83 now sits above the market.

 **MONITOR — Upgrade Watch****SONA****President Marcos 3rd SONA: Housing, Infra, Digital Economy in Focus**

President Marcos delivered his 3rd State of the Nation Address highlighting housing VAT exemption expansion, infrastructure acceleration (including the LRT-1 Cavite extension and MRT-7), digital economy governance, and energy security. The market interpreted the speech positively with the PSEi gaining 0.54%. Property names (SMPH, ALI, RLC) and infrastructure plays (AC, GTCAP) are potential beneficiaries.

SONA sets the policy agenda for H2 2026. Housing VAT exemption directly benefits developers. Infrastructure acceleration supports AC Infra and GTCAP. Digital economy frameworks benefit telcos (GLO, TEL) and fintech (Mynt IPO).

 **STRUCTURAL CATALYST****BDO** 125.20**BDO Rallies 1.8% with P37M Foreign Buying; Banks Recover**

BDO gained 1.79% to P125.20 on P470M turnover with P37.4 million in net foreign buying, reversing the prior session's -P140M outflow. The Financials sector rose 0.75%. PHL 10Y eased to 7.513% from 7.596%, providing relief to bank valuations.

BDO's P37M buying after P140M selling signals a potential flow inflection for the banking sector. The PHL 10Y decline to 7.513% is constructive.

 **MONITOR****MWC** 34.50**Manila Water Attracts P22M Buying — 6th Consecutive Session**

Manila Water recorded P21.9 million in net foreign buying on P121M turnover, extending its institutional inflow streak to six sessions totaling P287M. The stock closed flat at P34.50. MWC remains the most consistent defensive accumulation story in the PSEi.

MWC's P287M six-session cumulative buying is the most sustained utility-sector flow this month. The defensive positioning thesis is confirmed.

 **ACCUMULATE****EMI** 15.74**Emperador Attracts P24M Foreign Buying; Spirits Play Gains Traction**

Emperador gained 0.3% to P15.74 with P23.7 million in net foreign buying, continuing multi-session institutional interest. The spirits company benefits from inelastic demand and dollar export revenues.

EMI has emerged as an under-the-radar defensive play with consistent foreign buying across multiple sessions.

 **ACCUMULATE**

AEV 34.20**Aboitiz Equity +0.9% with P21M Buying; Infrastructure Diversification**

Aboitiz Equity gained 0.88% to P34.20 with P21.2 million in net foreign buying. The conglomerate benefits from infrastructure spending catalysts highlighted in SONA and the AP re-inclusion trade from the PSE float-rule change.

AEV is a play on both the AP PSEi re-inclusion and the broader Aboitiz group infrastructure diversification.

**FGEN** 20.50**First Gen Surges 6.8% on EDC/Barito Bid Momentum**

First Gen Corp. jumped 6.77% to P20.50 with P3.9M net foreign buying. The rally reflects renewed momentum on the Barito Renewables \$5B non-binding offer for EDC. FPH also gained 2.2% to P92.00.

FGEN's sharp move suggests the market is pricing in higher probability of the Barito/EDC deal progressing. Monitor for formal due diligence announcements.

**AT** 12.74**Atlas Mining +4.4% but P8M Foreign Selling — Local-Driven Rally Continues**

Atlas Mining gained 4.4% to P12.74 on P112M turnover, continuing its breakout from the 807% NI swing. However, P8.0M in net foreign selling suggests foreign institutions are taking profits even as local buyers push the stock higher. Mining & Oil led the session at +1.11%.

AT has now gained ~46% from its P8.75 level on July 17. The persistent foreign selling amid local buying creates a divergence that typically resolves with a correction. Not a new-entry level.

**MONDE** 7.09**Monde Nissin Rallies 5.5% with P10M Foreign Buying**

Monde Nissin surged 5.51% to P7.09 with P10.3 million in net foreign buying. The consumer food company's rally contrasts with broader consumer-sector weakness (JFC, URC under pressure). The stock may be benefiting from SONA consumer-stimulus expectations.

MONDE's sharp session move merits monitoring. The P10M foreign buying is modest but the stock has been a laggard and may be catching a re-rating bid.
